KINGSTON

KITCHEN & BATH

We just wanted to share with you how simple it is to use the Kingston Brass website to check stock and shipping times for any of their product.

1. Visit their website at www.kingstonbrass.com
2. In the top left you will see a field to "Search for Keyword or SKU"
3. Input the product keyword or SKU you are interested in.

At this point you will be directed to the product page and can see under *product description* how many are in stock and the typical shipping time.

Or, if you prefer to chat with a client and discuss options their website is incredibly intuitive with excellent photographs of their product. Just rollover the category you are interested in and follow the links. The product numbers are on all product pages and we can answer any questions you have from there.
