## "Silencer" Pipe Support and Pipe Protection Products

**Natural wool felt lined DWV pipe hangers for cast iron – ABS – PVC**  
**Far superior to any pipe hanger in plumbing for sound suppression**

Plastic "dipped" pipe hangers quickly degraded due to the fact that the PVC coating de-plasticizes losing its plastic characteristics and cracks or "oozes" from the clamps.

Unlike PVC coating which is flammable natural wool felt will not support combustion

- 1" width – 16 gauge
- Galvanized steel hanger
- Felt lined saddle
- Band bends for easy installation
- Locking screws keeps pipe secure
- Keyhole design provides faster installations
- For horizontal suspended piping needs
- Helps prevent pipe vibration
